NEW WESTMINSTER, THURSDAY, AUG. 3, 1865.

MUNICIPAL INSTITUTIONS.

New Westminster was the first city on the British Pacific to possess Municipal Institutions. Victoria came next. It is true the constitution granted to this city was wretchedly defective and faulty. With our miserable Municipal powers, however, and with difficulties to overcome of no ordinary magnitude, a comparison instituted between the Municipal administration of the two capitals of these colonies will redound very much to the credit of our own town. To those who saw the site of New Westminster prior to the establishment of a Municipal Council and who see it now it needs no effort on our part to prove the great benefits which have accrued from such an institution. Invested with the most meager powers, the Council has accomplished an amazing amount of work; and, although all the acts and expenditure of that body did not always pass unchallenged or unopposed, yet it must be conceded generally that the Municipal administration of the affairs of the city has always been characterized by a sincere desire for the general good, and that, whatever local objections may have been raised against particular works, the taxes have been economically and judiciously expended. But although in the main we may fairly felicitate ourselves upon the amount of good which has already resulted from Municipal Institutions, yet it must be confessed that the subject is not one of unmixed satisfaction. The stolid indifference evinced during the past year or two with regard to the selection of civic representatives is a condition of the public mind which bodes no good to the city. An eminent British statesman has said of Municipal Institutions, "They are deserving of the highest veneration and respect. They are founded on remote antiquity; they are the basis upon which everything that is good in free institutions is built up and perfected. They give to man the privilege of local self-government. They educate locally the people of a country, some afterwards to take a part in the large concerns of the nation—all to be able to form a correct judgment of the conduct of those by whom the national affairs are guided. They instruct and enlighten the mind, they practice the human intellect in all those exercises which render it manly and energetic, and they are, therefore, deserving of the highest possible commendation and encouragement." Such was the language used by Lord Palmerston in addressing the Corporation of Glasgow, and we would seek to impress the sentiment upon every one of our fellow-citizens. Profoundly impressed as we are with the importance of Municipal institutions, not only as a convenient and effective mode of promoting local improvements, but as a school for preparing the people for a wise and profitable exercise of the powers of self-government, we have observed with pain the growing indifference manifested by the rate-payers of this city at recent Municipal elections. We are not without those amongst us who are ever ready to find fault with everything that is done by the Council; but we deny to any rate-payer who will not take the trouble to go to the polls and record his vote for those candidates whom he believes to be the best qualified to promote the interests of the city, the right to find fault. If rate-payers so utterly neglect their duty, and hold so lightly their franchise, it ill becomes them to be everlastingly finding fault with those to whom the affairs of the city are entrusted for the nonce. We have said that the Municipal administration of this city has nothing to lose by a comparison with that of Victoria, with her greater population and more matured interests. But, while such has been the case so far, let us see to it that the scales may not be turned against us ere another civic year passes over our heads. Let the supineness which has characterized recent elections disappear with the expiring Municipal year, and let every one whose name appears on the Assessment Roll make it a matter of business to go to the polls next week and show, by a careful exercise of his franchise, that he feels a becoming interest in the welfare of the city and that he appreciates the powers of local self-government, measure as they are. It is by making a good use of what we possess that we most effectively assert our right to more. Twelve Councillors are undoubtedly too many for our circumstances, and the wretched Constitution, so-called, renders the Council much less useful than it might be, if in-

vested with the usual powers of a Corporation. But let those men be selected who will work it to the best advantage for another year, and by the expiration of their term of office it is to be hoped the city may enjoy a constitution of a more liberal and useful character.

Dissolution of Copartnership.

THE PARTNERSHIP heretofore existing between the undersigned as Blacksmiths in this city, under the firm name of Carter & Hand, is this day dissolved by mutual consent. William Carter retiring from the firm. The business will be carried on as usual by Geo. Hand, who hopes to merit a share of the public patronage, so liberally extended to the late firm. And as W. Carter intends returning to his native country in a short time, he begs to return his thanks for the encouragement he received in business in New Westminster, and respectfully requests that all outstanding accounts will be paid in within the next fifteen days.

NEW WESTMINSTER, THURSDAY, AUG. 3, 1865.

BY MAGNETIC TELEGRAPH!

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

Loss of Str. "Brother Jonathan"

NEARLY ALL ON BOARD.

Fight with the Plain Indians.

LIEUT. COLLINS & TWO MEN KILLED.

CALIFORNIA DATES TO THE 1st.

EASTERN LINE STILL DOWN.

SEATTLE, 9 a. m., August 2.—The following dispatch is just received:—

JACKSONVILLE, August 1.—A soldier arrived this evening at 9:30 from Camp Lincoln, bringing a dispatch for General Drum, which reports the *Brother Jonathan*, with General Wright, staff and family, and between two and three hundred passengers, was lost near Crescent City on the thirtieth ultimo. Fourteen men and one woman were saved.

FURTHER PARTICULARS OF LOSS OF THE "BROTHER JONATHAN."

JACKSONVILLE, August 2.—The last seen of Gen. Wright he was standing on board holding a life-preserver in his hand. There were two boats swamped before the one that the ten men and the woman and child made their escape in. Capt. Buckley had men patrolling the beach all night and the next day, so as to pick up any bodies that might drift ashore, but there were no drifting bodies came ashore up to 2 o'clock on the 31st ult.

The boat fired 2 guns but it was thought it was only a signal gun of some upward bound boat. There was nothing known of it until it was made known by those who made their escape in the small boat. She was wrecked by running on a sunken rock off St. George Point near Crescent City.

SAN FRANCISCO, July 31.—SALT LAKE, July 31.—The operator from Platte Bridge came six miles this side of his station and reports that the Indians have carried off five miles of wire this side of the station; also, that on the 26th a body of Indians, estimated at from 1,000 to 3,000, attacked the station. There was also heavy skirmishing during the afternoon. A number of Indians were killed. Lieut. Collins, of Company G., Eleventh Ohio, with 2 men were killed. The Lieutenant was leading 200 Kansas troops in a charge against about six hundred Indians. The Indians divided and have gone south. A reinforcement of one regiment of cavalry is expected to arrive to-night, and they will pursue the Indians. The line will be repaired as soon as wire can be sent to the break.

SAN FRANCISCO, July 31.—Ex-Speaker Colfax and party arrived from Oregon this morning. He has consented to deliver a lecture on the "Life and services of Abraham Lincoln" before the Odd Fellows Society of this city on Wednesday evening.

MARKETS.

Mining stocks were better to-day, Yellow Jacket having advanced to 1,210 and declining again to 1,175.

Legal tenders 74 1/2 @ 74 1/2, brokers rates.

SHIPPING INTELLIGENCE.

Arrived, steamer *Sierra Nevada*, from Victoria. Sailed, bark *Carlotta*, for Nanaimo, brig *Brewster*, for Victoria.

SECOND DISPATCH.

SAN FRANCISCO, August 1.—No change in the condition of the overland line. E. P. Clark, who was tried for embezzlement and acquitted, has brought suit against the *Bulletin* to recover \$50,000 damages for an error in the report by which it appeared that the jury rendered a verdict of "guilty" whereas the verdict was really "not guilty."

Judge Sawyer yesterday denied the application of James M. Barson for a writ of *certiorari* declaring that the decision in the County Court in the suits brought for damages for an overcharge of fare in the street cars should be reviewed by His Honor. This appears to effectually dispose of this class of cases, of which a great many have been brought before the Courts.

A young Mexican merchant named Alfredo Weesche, from San Jose, has been missing about a week. He came to this city to buy goods and when last seen had about \$800 in money, and it is feared he has been murdered.

The U. S. steamer *Saginaw* arrived at San Pedro on Sunday last and is expected here by the 3rd inst.

Some weeks ago a detailed account of the adventures of Capt. Jim Jones of the steamer *Jenny Jones* of Washington Territory was published. It seems that Jones was in jail at Olympia and his vessel in the hands of the U. S. Marshal, under a libel for debts which had been contracted on her account, when he broke jail, got on board his steamer and put to sea, telling the keepers that they could ship as deck hands with him or go on shore in the small boat, the latter of which propositions they accepted. It seems that he then proceeded to Mexico and finally sold his steamer in Mazatlan to a Spanish firm for \$12,000, and with his money came back to San Francisco on the *John L. Stephens* last week and has since been arrested by Capt. Lees and officers Ellis and Ainsbrough, upon the strength of a published advertisement in a Puget Sound paper offering a reward for his arrest. He takes the matter very philosophically. One of the

purchasers of the steamer has also arrived here and finds that the vessel is mortgaged by bottomry bonds for all she is worth, and the chances are that they will lose their money or the boat or both.

The trial of one of the champagne cases resulted in verdict in favor of the U. S., which works a forfeiture of the wine.

J. W. Brittain & Co. recovered a judgment in the 12th District Court to-day against J. S. Barman, of Yuba County for \$2,400.50 for merchandise sold and delivered.

The Hon. Schuyler Colfax intends to return to the Atlantic states by the steamer of the 18th.

MARKETS.

Legal tenders 74 1/2 @ 74 1/2.

Butter, has declined sales 300 firkins prime at 32 1/2 @ 33c.

Sugar, sales 300 bbls Bay refinery, on a basis of 15 1/2c for circle A crushed.

Flour, sales include 2,500 quar. sacks at \$5.50 @ \$5.75 for superfine, and \$6.50 @ \$6.75 for extra-brands.

Wheat, sales 1,876 sacks at \$1.75 @ \$1.85 per 100 pounds.

Barley, sales 1,300 sacks at 95c. to \$1.

Hay, there were cargo sales at \$9 to \$12 per ton.

A Trip to English Bay.

Four members of the Board of Directors of the British Columbia Coal Mining Company paid a visit to English Bay and Burrard Inlet this week for the purpose of reconnoitering the coal grounds of the company, preparatory to inaugurating active operations. The weather proved most propitious, although the party, in crossing English Bay in an Indian canoe, encountered a stiff breeze, which resulted in an involuntary bath. We are not going to attempt a description of the beautiful scenery of Burrard Inlet, but would, instead, recommend all who can spare the time to go over and enjoy the delightful sea-breeze, a sail on the salt, salt sea, and the luxury of a bath. We might enlarge upon the further attractions of "Brighton," if one might venture to christen the town at the terminus of the Douglas street road, which is, we believe, still without a name, and the assiduous attentions of *mine* hosts of the new hotel just established there by Messrs. Oliver Hocking and Fred Houston, who are making the most praiseworthy exertions to provide the usual amusements &c. of a watering place; but time and space admonish us to hasten on to a more practical, and perhaps, more interesting part of our subject. To the general reader it matters little how the party got there, and how they fared by the way. How about coal? That's the question. We may say, in a word, that in the general formation of the country, the continuous range of sandstone, permeated for miles with cropping veins of lignite, anthracite and fossilized vegetation, the most unquestionable and abundant evidences of the close proximity of coal beds is to be found, while, cropping out at low tide, there are to be found substantial seams of coal, detached pieces of which are picked up and used by the natives for fuel. There can be no doubt at all as to the existence of coal measures in abundance, and all that would appear to be needed in order to open them up and turn them to profitable account is capital. Nor can we believe that much difficulty will be experienced in raising the necessary capital, with such inviting prospects as the company are enabled to place before the public.

VANCOUVER ISLAND.—The papers brought up from Victoria on Tuesday do not contain much news. The Union-mongers had started another of their periodical rumors respecting dispatches having been received containing instructions favorable to union. The paragraph is evidently got up for the purpose of buoying up the flagging spirits and expiring hopes of those whose cure-all is union with British Columbia.—The Victoria Volunteer Rifle Corps, at a meeting on Friday evening, all but unanimously elected the Rev. Mr. Somerville, of the First Presbyterian Church, Chaplain to the corps.—The steamer *Geo. S. Wright* and the schooner *Milton Badger* sailed north on Sunday, having Colonel Bulkeley and the telegraph party on board. The *Geo. S. Wright* may be expected back here about October next.—The Hon. Mr. Colfax left Victoria on Friday. His reception in Victoria has certainly been a most enthusiastic one. His arrival at San Francisco is announced in our telegraphic columns.—Mr. Wm. Hubbard was elected to represent Johnston Street Ward in the place of Mr. M. Munro.—The Central School was to be opened on Tuesday. Mr. John Jessop is Principal of the male and Mrs. Fisher of the female departments.—The sch. *Amelia* had arrived from S. P. Moody & Co.'s Mills, Burrard Inlet, with a cargo of lumber. The following vessels are due at this port:—The *Ann Adamson* and *Philomela*, from London; the *Cyclone*, from Liverpool; bark *D. M. Hall* and brig *Sheet Anchor*, from San Francisco.

LOSS OF ANOTHER STEAMER.—In our telegraphic department will be found the bald announcement of the loss of the steamer *Brother Jonathan*, off Crescent City, about 150 miles above San Francisco. This is, so far as yet known, one of the most serious marine disasters which it has been our painful duty to record. We had hoped to be able to lay before our readers a list of the passengers, but up to going to press no further particulars had reached us.

THE AURORA BOREALIS presented a scene of Lapland magnificence last night. At one moment it would seem as though the heavens were supported on pillars of gold; then gradually dying away, it would suddenly flare up and assume all the varied tints of the rainbow.

"OREGON JACK."—It having been reported that this notorious character was lurking round the Fisheries, opposite this city, Mr. T. Brew proceeded thence last night, and succeeded in arresting and lodging him safely in jail.

Fire Department.

The Hyack Fire Company met last evening for the purpose of electing officers for the ensuing year, Capt. Scott in the chair. We have only room to give the result of the election, which was as follows:—

Mr. L. Hoyt, Captain.
" S. Handy, 1st Lieutenant,
" W. Vienna, 2nd Lieutenant.
" G. C. Clarkson, Secretary.
" J. S. Clute, Treasurer.
" E. Jenkins, 1st Branchman,
" Jas. Wise, 2nd
" M. Herinap, 3rd

A Peep at the Other Side.

We make the following extract from a letter published in the *Cariboo Sentinel* of the 23rd ult., signed "Independent" and dated Williams Creek 12th July, 1865. We would gladly publish the whole of the letter did space permit:—

To the Editor of the "Cariboo Sentinel."

SIR.—As you have taken a prominent stand in favor of Union between this colony and Vancouver Island, and as your statements might, unless opposed, be regarded as an index of popular sentiment in Cariboo, I ask the privilege of saying a few words on the other side.

I confess, sir, that I am unable to see what advantage this colony would derive from such a Union, and the very fact that the people of Vancouver Island appear now so anxious to consummate what they formerly so bitterly opposed, shows that either they consider that any advantage to be derived would ensure (?) to their special benefit, or else that they are imbued with a greater share of disinterested benevolence than usually falls to the lot of weak human nature. Look at the newspaper reports, look at your own correspondent's last letter, and read the accounts of the doings of the contemptible, effete, driveling Legislature of Vancouver Island, and the Municipal Council of Victoria; of the squabbles about Church Reserves and elephantine dredgers, and tell me if we have not enough local troubles of our own, without engrafting those of our petty bankrupt neighbor on the stem of our political system. If we were united to-morrow, I should expect to see a constant state of intestine strife between the two colonies. Our Island consins would endeavor, if possible, to restore the old system of centralization and to transfer the capital to Victoria, locating us permanent residents of British Columbia as aliens to whom they graciously offered the boon of relieving them of their burdens, and by our hard lot indulging them in idleness and luxury. Show me, sir, how our resources would be increased, our taxation reduced, or our social importance in the family of nations elevated by this proposed union, and I will at once give my steady adhesion to it, but until I can find more convincing proof than any that I have yet seen adduced you must excuse my incredulity, and I think I am not wrong in asserting that my sentiments on this head are shared by the great bulk of the mining community and permanent inhabitants of the colony.

I do not intend at present going into any prolix dissertation on this matter, my object being simply to protest against the doctrines which you advocate (no doubt honestly) being regarded as the real sentiments of the miners, the bone and sinew of the country, who now find it hard enough to support the Government of one colony, without, like Sinbad the sailor, when he was forced to carry the old man of the sea on his shoulders, bearing an additional incubus in the shape of Vancouver Island.

Gleanings from European Exchanges.

At the annual dinner of the Press Fund Society, at the Freemason's Tavern, Mr. Charles Dickens, who presided upon the occasion, said:—"I hope I may be allowed in the few closing words that I feel a desire to say in remembrance of some circumstances, rather special, attending my present occupation of this chair, to give those words something of a personal tone. I am not here advocating the case of a mere ordinary client of whom I have little or no knowledge. I hold a brief to-night for my brothers [loud and continued cheering]. I went into the gallery of the House of Commons as a Parliamentary reporter when I was a boy not eighteen, and I left it—I can hardly believe the exorable truth—I thirty years ago; and I have pursued the calling of a reporter under circumstances of which many of my brethren at home in England here, many of my brethren's successors, can form no adequate conception. I have often transcribed for the printer from my shorthand notes important public speeches, in which the strictest accuracy was required, and a mistake in which would have been to a young man severely compromising, writing on the palm of my hand by the light of a dark lantern in a post-chaise and four, galloping through a wild country all through the dead of the night at the then surprising rate of fifteen miles an hour. The very last time I was at Exeter I strolled into the castle yard, there to identify, for the amusement of a friend, the spot on which I once 'took,' as we used to call it, an election speech of my noble friend Lord Russell in the midst of a lively fight maintained by all the vagabonds in that division of the county, and under such pelting rain that I remember two good-natured colleagues, who chanced to be at leisure, held a pocket handkerchief over my notebook after the manner of a state canopy in an ecclesiastical procession [Laughter]. I have worn my knees by writing on the back row of the old gallery of the House of Commons; and I have worn my feet by standing to write in a propostorous pen in the old House of Lords, where we used to be huddled like so many sheep [Laughter] kept in waiting till the woolstack might want re-stuffing [Laughter]. Returning home from excited political meetings in the country to the waiting press in London, I do verily believe I have been upset in almost every description of vehicle known in this country [A laugh]. I have been, in my time, belated on miry by-roads towards the small hours, forty or fifty miles from London, in a rickety carriage, with exhausted horses and drunken postboys, and have got back in time before publication, to be

received with never-forgotten compliments by Mr. Black, in the broadest of Scotch, coming from the broadest of hearts I ever knew [Hear, hear]. Ladies and gentlemen, I mention these trivial things as an assurance to you that I never have forgotten the fascination of that old pursuit [Cheers]. The pleasure that I used to feel in the rapidity and dexterity of its exercise has never faded out of my breast. With whatever little cunning of hand or head I took to it, or acquired in it, I have so retained as that, I fully believe, I could resume it to-morrow [Cheers]. To this present year of my life, when I sit in this hall, or where not, hearing a dull speech—the phenomenon does occur [Laughter]—I sometimes beguile the tedium of the moment by mentally following the speaker in the old, old way; and sometimes, if you can believe me, I even find my hand going on the tablecloth, taking an imaginary note of it all [Laughter]. Accept these little truths as a confirmation of what I know, as a confirmation of my interest in this old calling. Accept them as a proof that my feeling for the vocation of my youth is not a sentiment laid up to-night to be thrown away to-morrow [Hear, hear], but a faithful sympathy which is part of myself [Cheers]. I verily believe—I am sure—that if I had never quitted my old calling I should have been foremost and zealous in the interest of this institution, believing it to be a sound, a wholesome, and a good one."

A Queensland paper gives the following particulars of a voracious fish, called a grouper, which was caught off that coast. It was 7 ft. long, 6 ft. in circumference at its thickest part, and its head weighed 80 lb. When opened there were found in its stomach two broken bottles, a quart pot, a preserved-milk tin, seven medium-sized crabs, a piece of earthenware, triangular in shape and three inches in length, incrustated with oyster shells, a sheep's head, some mutton and beef bones, and some loose oyster shells. The spine of a skate was imbedded in the grouper's liver.

The following advertisement appears in a Shanghai paper, the *Friend of China*, of March 7:—"Good Friday.—Hot Cross Buns.—Orders for these superior buns should be sent early—for, as is well known to all good Christians, only a baker educated in England is acquainted with the proper mode of manipulation, and the demand by old customers is already extensive."

A Pacific Pearl Company has been formed at New York, the capital of which is \$1,000,000. The company purpose fishing for pearls and pearl shells on the Pacific coast. Their operations will be carried on by means of a submarine explorer. Pearl oysters abound in the Gulf of California, and it has been fished by the natives for 300 years.

Several journals have published a paragraph stating that a Russian lady has presented to the Pope a pair of slippers "warmly" lined with bank notes of the value of more than £6,000.

An excursion round the world is being organized at Antwerp. The voyage will last two years, and the principal ports in both hemispheres will be successively visited. It is chiefly intended as a means of educational travel for young men.

THE CANADIAN DELEGATES.—The *Ouel* says:—"The Canadian delegates return next week to Canada. We are glad to know their mission has been successful—that their interviews with Mr. Cardwell have resulted in complete union between their views and those of her Majesty's Government for the fortification of Quebec and Montreal, and for the general defence of Canada, and that they feel confident that the Confederation of all the North American provinces will be arranged to the entire satisfaction of both the Imperial Government and the various provinces of British America."

PROSPECTUS OF THE

BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - \$100,000,

IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

300 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;

Hon. J. A. R. HOSKIN, M.L.C.; W. CLARKSON, Esq.,

JOHN ROBSON, Esq., GEORGE DIETZ, Esq.,

SEWELL P. MOODY, Esq., JAMES VAN BRANKER, Esq.,

JOSEPH C. HUGHES, Esq., W. J. ARMSTRONG, Esq.,

JOHN PICKAVANT CRANFORD, Esq.

AUDITOR:

THOMAS MCKINNO, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous croppings of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on English Bay, and the British Columbia Government has pledged its support in every reasonable way.

It is the intention of the company forthwith to explore the vicinity of English Bay for Coal, by putting down a bore—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of the Bay and Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

500 B. shares are all that are at present offered for subscription. The monthly calls on these will be adequate to meet the current expenses of exploring; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster. jyl7tc

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if these
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief
and speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ul-
ceration. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Contracted Hands.	Scalds.
Bad Breasts.	Stiff Joints.	Sore Nipples.
Burbs.	Elephantiasis.	Sore Throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes.	Gout.	Scurvy.
and Sand-Flies.	Glandular Swel-	Sore-heads.
Coco-bay.	lings.	Tumors.
Chiefo-foot.	Lumbago.	Ulcers.
Corns (soft).	Piles.	Wounds.
Cancers.	Rheumatism.	Yaws.
Chilblains.
